Author index of Volume 38

Alvarez, A., W. García, O. Camacho and E. Chacón, Automation of a steam generation plant using hybrid systems 87– 99

Alvarez, E., C. Riverol and J.M. Navaza, Control of chemical processes using neural networks. implementation in a plant for xylose production. 375–382

Anderson, M.J., *see* Hanshaw, T.C. 323–335

Andreou, A.G., *see* Kalayjian, Z.K. 203–209

Bartran, D.S., J.M. Kinsey, R. Schappelle and R. Yee, Flow induced vibration of thermowells 123–132

Batur, C., W.M.B. Duval and R.J. Bennett, Control and design of crystal growth furnace 73– 85

Batur, C., M.H. Vhora, M. Cakmak and T. Serhatkulu, On-line crystallinity measurement using laser Raman spectrometer and neutral network 139–148

Bennett, B., *see* Krothapally, M. 185–198

Bennett, R.J., *see* Batur, C. 73– 85

Brey, E. and P.A.S. Ralston, Comparison of dead time compensation schemes for discrete implementation of the Q-PID algorithm 171–183

Burstein, L., D. Ingman and Y. Michlin, Correlation between gas molecular weight, heating value and sonic speed under variable compositions of natural gas 347–359

Cakmak, M., *see* Batur, C. 139–148

Camacho, O., *see* Alvarez, A. 87– 99

Camacho, O., R. Rojas and W. García, Variable structure control applied to chemical processes with inverse response 55– 72

Cascetta, F., Experimental investigations upon the pressure effects on two Coriolis mass flowmeters of different generation 149–156

Cash, E., *see* Gemperline, P.J. 211–216

Chacón, E., *see* Alvarez, A. 87– 99

Chan, C.C., *see* Ho, H.L. 43– 53

Cruz, S.L., *see* Oisiovici, R.M. 217–224

Dragffy, G., The VLSI route for highly reliable ESDs 101–119

Dutta, P. and R.R. Rhinehart, Application of neural network control to distillation and an experimental comparison with other advanced controllers 251–278

Duval, W.M.B., *see* Batur, C. 73– 85

Ermolin, V., *see* Ermolin, Y. 133–137

Ermolin, Y. and V. Ermolin, An error in measuring the liquid volume inside variously shaped reservoirs 133–137

Ferrer, J., *see* Rodrigo, M.A. 231–241

Finney, W., *see* Krothapally, M. 185–198

Fung, H.-W., *see* Wang, Q.-G. 3– 9

Fung, H.-W., *see* Wang, Q.-G. 243–249

García, W., *see* Alvarez, A. 87– 99

García, W., *see* Camacho, O. 55– 72

Gemperline, P.J., M. Zhu, E. Cash and D.S. Walker, Chemometric characterization of batch reactions 211–216

Gorecki, R. and J. Jekielek, Simplifying controller for process control of systems with large dead time 37– 42

Published by Elsevier Science Ltd.
